

Since 2000, Polestar has provided a wide range of services at the NNSS supporting the Environmental Restoration, Stockpile Stewardship, Nuclear Operations, Nuclear Safety, RTBF and IMM programs and projects.

Polestar's experience provides in-depth knowledge of site systems, procedures, interfaces, facilities, organizations, resources and the unique aspects of working on such a large, diverse site.

- Long Range Planning
- Project Management and Execution
- Facility Operations and Maintenance
- Technical Engineering and Support
- Radiological Modeling and Analysis
- Environmental Management
- Risk and Issues Management
- Asset Management
- Organization and Process Improvement

Polestar draws on a wide variety of disciplines in start-up, surveillance, operations, engineering, decommissioning, remediation, environmental, nuclear safety, emergency preparedness and waste management to support projects.
