

Every challenge is unique; your success is our priority.

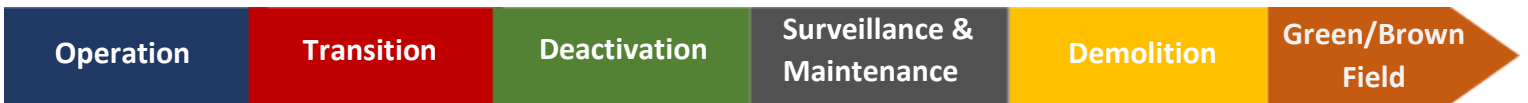

Polestar Technical Services, Inc. specializes in risk reduction and liability solutions with a focus on cleanup of high-hazard work environments to safely accelerate progress and reduce long-term costs. We deliver a full-service lifecycle approach to cleanup with the tools, processes and people to make the vision real: subject matter experts to develop, implement and verify technical approaches and critical programmatic functions; defensible tools and processes for a systematic and consistent approach; and project management to start and keep projects on track.

Polestar's experience and capabilities include support from the earliest decision for facility shutdown, to deactivation and hazards removal, through surveillance and maintenance, concluding with full demolition and site restoration.

Full Scope Support

With the ability to support the specific needs of any facility's post-operational process, Polestar partners with our clients every step of the way. Our team has the experience and expertise to develop and implement strategies based on the phase support needed for each unique project.

It's in Our DNA

Polestar assisted in the establishment of DOE guidance documents:

- DOE G 430.1-2, *Implementation Guide for Surveillance and Maintenance during Facility Transition and Disposition*
- DOE G 430.1-3, *Deactivation Implementation Guide*
- DOE G 430.1-5, *Transition Implementation Guide*
- DOE/EM-0318 *Facility Deactivation Guide - Methods and Practices Handbook*
- DOE-STD-1120-98, *Integration of Environment, Safety and Health into Facility Disposition Activities*

Every challenge is unique; your success is our priority.

Our capabilities also include support to programmatic functions such as organizational development, change management, work process redesign, integrated safety management, conduct of operations, emergency preparedness, and nuclear safety.

Polestar Technical Services, Inc. was originally founded as Polestar Applied Technology in 1992. Throughout its history, Polestar has demonstrated a commitment and capability to provide outstanding support and personnel to the post-operational nuclear industry. Polestar is self-certified as a women-owned small business with the SBA and is headquartered in Richland, WA.
